## ABOUT ME

Motivated and detail-oriented 3rd-year Information Technology student specializing in Frontend Development. Seeking an internship or part-time position to apply my skills and contribute to dynamic web development projects while further enhancing my expertise..

## EXPERIENCE

### Personal Portfolio Website

HTML, CSS, JavaScript

- Developed a dynamic website to effectively exhibit my skill set and project accomplishments.
- Enhanced user experience by implementing smooth scrolling and interactive elements.
- Utilized GitHub Pages for hosting.
- Increased accessibility and usability of website interfaces with responsive and user-friendly designs.

### NetSec Client Portfolio Website

HTML, CSS, JavaScript

- Developed a professional portfolio website for a network security client to showcase their services and achievements.
- Implemented secure and responsive design practices to ensure the website's accessibility and user-friendly interface.
- Integrated features such as service descriptions, case studies, and a contact form.
- Collaborated with the client to gather requirements and ensure the final product met their expectations.
- Increased accessibility and usability of website interfaces with responsive and user-friendly designs.
- Developed and modified web pages, adding, removing or changing content, style or format to suit client preferences.

### E-Commerce Accessories Store

HTML, CSS, JavaScript, Bootstrap

- Developed a responsive e-commerce website to sell accessories such as mouse, keyboard, and headset.
- Utilized Bootstrap for fast and responsive UI development, ensuring compatibility across various devices and screen sizes.
- Implemented features including product listings, a shopping cart, and a checkout process.
- Enhanced user experience with interactive elements such as modals and carousels.
- Ensured website accessibility and performance optimization

### E-Commerce Website

PHP, HTML, CSS, Postgresql

- Role: Frontend Developer (Team Project)
- Collaborated with a team to develop a responsive e-commerce web application.
- Implemented product listing, shopping cart functionality, and user authentication.
- Managed project and web strategic planning for entire team.
- Worked with different testing tools and frameworks, content management systems and cross-functional teams to smoothly complete project.
